

Ведущая организация

Центральный аэрогидродинамический институт (ЦАГИ) имени профессора Н. Е. Жуковского, 140180, г. Жуковский, ул. Жуковского, 1

Список научных трудов по теме диссертации:

1. Kopiev V.F., Shur M.L., Travin A.K., Belyaev I.V., Zamtfort B.S., Medvedev Y.V. Assessment of community noise for a medium-range airplane with open-rotor engines // **Acoustical Physics**. - 2017. - V. 63 (6). - P. 723-730.
2. Kopiev V.F., Zaytsev M.Y., Vorontsov V.I., Karabasov S.A., Anikin V.A. Helicopter noise in hover: Computational modelling and experimental validation // **Acoustical Physics**. - 2017. - V. 63 (6). - P. 686-698.
3. Kopiev V.F., Kazansky P.N., Kopiev V.A., Moralev I.A., Zaytsev M.Y. HF DBD plasma actuators for reduction of cylinder noise in flow // *Journal of Physics D: Applied Physics*. - 2017. - V. 50 (47). - P. 475204.
4. Kopiev V.F., Chernyshev S.A., Yudin M.A. Instability of a cylinder in the circulation flow of incompressible ideal fluid // **Journal of Applied Mathematics and Mechanics**. - 2017. - 81 (2), 148-156.
5. Kopiev V.F., Palchikovskiy V.V., Belyaev I.V., Bersenev Y.V., Makashov S.Y. Construction of an anechoic chamber for aeroacoustic experiments and examination of its acoustic parameters // **Acoustical Physics**. - 2017. - V. 63 (1). - P. 113-124.
6. Belyaev I.V., Zaytsev M.Y., Kopiev V.F., Ostrikov N.N., Faranosov G.A. Studying the effect of flap angle on the noise of interaction of a high-bypass jet with a swept wing in a co-flow // **Acoustical Physics**. - 2017. - V. 63 (1). - P. 14-25.
7. Kop'ev V.F., Zaitsev M.Y., Ostrikov N.N., Denisov S.L., Makashov S.Y. On determining the acoustic properties of main helicopter rotor models on an open test bench // **Acoustical Physics**. - 2017. - V. 62 (6). - P. 741-746.
8. Semiletov V.A., Yakovlev P.G., Karabasov S.A., Faranosov G.A., Kopiev V.F. Jet and jet-wing noise modelling based on the CABARET MILES flow solver and the Ffowcs Williams-Hawkings method // **International Journal of Aeroacoustics**. - 2016. - V. 15 (6-7). - P. 631-645.
9. Faranosov G.A., Belyaev I.V., Kopiev V.F., Zaytsev M.Y., Aleksentsev A.A. Adaptation of the Azimuthal Decomposition Technique to Jet Noise Measurements in Full-Scale Tests // **AIAA Journal**. - 2016. - V. 55 (2). - P. 572-584.
10. Kopiev V.F., Zaitsev M.Y., Kopiev V.A., Ostrikov N.N., Faranosov G.A. Application of corona discharge acoustic characteristics to determine its properties // **Acoustical Physics**. - 2016. - V. 62 (4). - P. 429-435.

11. Kopiev V.F., Zaytsev M.Y., Belyaev I.V. Investigation of airframe noise for a large-scale wing model with high-lift devices // **Acoustical Physics**. - 2016. - V. 62 (1). - P. 97-107.
12. Belyaev I.V., Zaytsev M.Y., Kopiev V.F. Effect of chevrons on the slat noise of straight and swept wings // **Acoustical Physics**. - 2015. - V. 61 (6). - P. 715-723.
13. Kopiev V.F., Mironov M.A., Yakovets M.A. Flow noise in a corrugated pipe in terms of the theory of instability waves // **Acoustical Physics**. - 2015. - V. 61 (5). - P. 499-503.
14. Kopiev V.F., Belyaev I.V., Zaytsev M.Y., Kazansky P.N., Kopiev V.A., Moralev I.A. Noise control of a flow around a cylinder using high-frequency dielectric barrier discharge plasma actuators // **Acoustical Physics**. - 2015. - V. 61 (2). - P. 178-180.
15. Kopiev V.F., Faranosov G.A. Generalization of the Method of Azimuthal Decomposition of an Acoustic Field of a Compact Source for Measurements in the Vicinity of a Rigid Surface // **Acoustical Physics**. - 2015. - V. 61 (1). - P. 60-63.
